

GRETA DU VELAY

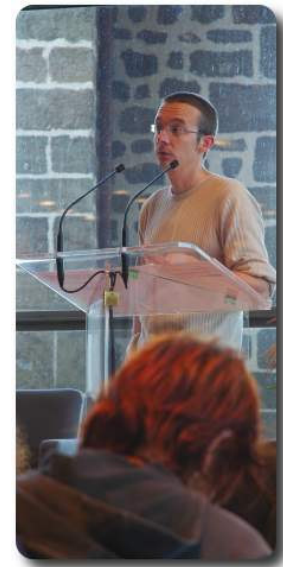

The GRETA du Velay is a regional group of 21 public educational establishments (secondary and high schools, vocational schools under the wing

of the ministry of national education).

It is specialised in continuous and vocational education in various areas : audio-visual, catering, cooking, tourism, building, healthcare, vocational integration, rural development, environment, services (accounting, management, computers,...), languages, industry (quality maintenance, production, consulting,...), etc.

It co-ordinates a network of open and flexible learning centres in rural places. In addition, its transversal expertise includes : training needs analysis (company, community, group, individual), customisation of training (preliminary assessment, updating, course design), community development, tutors training, open and distance training and e-learning development.

The GRETA du Velay is a member of the GRETA network that gathers 288 of them (making this network one of the main training provider in France).

The GRETA du Velay has implemented several European actions and research project related to training development and to the introduction of ICT in training for the less favoured people (eg: <http://diese.net>, <http://guidemploi.velay.greta.fr>, <http://citim.velay.greta.fr>).

The GRETA du Velay is a board member of [CREATIF](#) a country wide non profit organisation aiming at developing free access to ICT for all. Accessibility in a broad sense is taken into account in all implementations.

It is the coordinator and promoter of the [European charter for social and digital inclusion](#).
